Following discussion, the District Engineer was asked to compile a prioritized list 136 of repair locations. 137 138 The Board also engaged on a conversation related to a streetlight issue that had 139 been the subject of a resident complaint. Ms. Streeter stated that she would 140 personally visit the area one evening to assess the brightness of the streetlight in 141 question. Mr. Zordan confirmed that he is actively working to resolve the matter. 142 143 C. **District Manager** 144 Ms. Blandon began her report by stating that, as of April 15, 2025, there were 1,248 145 registered voters within the District. 146 147 148 She also confirmed that, according to the Board's prior discussion, the next Board of Supervisors meeting has been rescheduled for June 5, 2025, at 11:30 a.m. This 149 update will be posted on the District's website, and a notification will be sent 150 accordingly. 151 152 **EIGHTH ORDER OF BUSINESS** Supervisor Requests and Audience 153 154 Comments 155 Ms. Blandon asked if there were any supervisor requests or comments. 156 157 Ms. Streeter addressed Mr. Sisler's concerns regarding the irrigation issue. She 158 explained that the District operates a single irrigation system that serves both the 159 residential areas and CDD property. As a result, the new irrigation vendor will need to 160 coordinate with the current vendor to complete necessary repairs. She further clarified 161 that the residential area in question falls under the jurisdiction of the golf course; however, 162 efforts are underway in collaboration with an irrigation vendor to resolve the issue. 163 164 Ms. Deramo raised a concern regarding an irrigation issue in her backyard, which 165 she stated was caused by work done by a vendor. Ms. Blandon clarified that this matter 166 falls under the jurisdiction of the HOA and, therefore, is not within the scope of the District 167 Board's responsibilities or discussion. 168 169 170 Ms. Deramo was also asked about the pump station placed on CDD property. In response, Ms. Blandon requested that Mr. Zordan explain the purpose and functionality 171 of the system. 172 173 174 Mr. Zordan clarified that the installation in question is a recharge system, not a pump station. He explained that, in accordance with South Florida Water Management 175 District (SFWMD) regulations, any water extracted must be returned to the lake. The 176 system is currently undergoing testing, and certification is expected soon, at which point 177 the recharge system will be fully operational. 178 179 Ms. Streeter reiterated that the recharge system is still undergoing testing and, 180 according to the project timeline, it is expected to become operational by the end of May 181 182 or early June.
