Sincerely,

DELIVERING QUALITY TO YOU

AUDIT METHODOLOGY

Our audit, tax, consulting, and client accounting services documentation is maintained electronically. Compliance with our methodology is regularly reviewed and evaluated as part of our internal quality program, which is further discussed in this section under [INTERNAL QUALITY CONTROL REVIEWS AND EXTERNAL REVIEWS](#). Comprehensive policies and procedures governing all of our practices and addressing professional and regulatory standards and implementation issues are constantly updated for new professional developments and emerging issues. See [PAGES 23 – 26](#) for a more detailed description of the relevant approach and methodology.

ENGAGEMENT QUALITY REVIEW PARTNER (CONCURRING PARTNER)

Each audit has an assigned engagement quality review (EQR) partner with the appropriate experience. This role is one of the most important elements of our quality assurance process, as it provides for a timely, independent review of all key accounting and auditing issues. The EQR partner also reviews the financial statements and related supporting documentation—including the disclosures—to evaluate their fair presentation under accounting principles generally accepted in the United States of America (GAAP).

INTERNAL QUALITY CONTROL REVIEWS AND EXTERNAL REVIEWS

Experienced partners and professional staff of our firm conduct quality control reviews of our audits. Our partners' work is reviewed annually, and the inspection process includes periodic testing of the effectiveness of our quality controls and a continuous improvement program.

- **Internal Inspection:** A permanent team of subject matter experts annually perform 150+ reviews of a risk-based sample of partners and engagements.
- **Continuous Process Improvement Reviews:** In addition to #1 above, this ongoing process reviews each audit partner twice annually, representing 300+ reviews each year.

CRI is enrolled in the AICPA Peer Review Program, through which our external reviews are conducted by another independent public accounting firm. We have our accounting and auditing practice triennially reviewed as a member in this program.

Additionally, we are registered with the PCAOB, who performs an external review inspection once every three years.

THE CRI vSTAR™ PROCESS

FREQUENTLY ASKED QUESTIONS

Is the CRI vSTAR™ process secure?

Yes. Three points of focus are:

1. All sessions are encrypted using TLS.
2. All recordings are maintained on encrypted CRI recordings.
3. It eliminates your need to potentially supply user credentials to your auditor.

What are the set-up requirements?

Internet connection and installation of the GoToMeeting App (license provided by CRI) plus:

- For group meetings, TV or projector with HDMI input plus approximately 20 minutes for CRI vSTAR™ kit set-up.

- For one-to-one meetings, a device with sound – and preferably a camera.

How does session scheduling work for the CRI vSTAR™ process?

The process utilizes widely accepted calendaring tools – such as Microsoft Outlook – to schedule audit procedures.

REASONS TO CHOOSE CRI'S VIRTUAL SMART TECH AUDITS & REVIEWS

1 INCREASES TIME EFFICIENCIES

Efficiently scheduled procedures and testing reduce the time your team is "on hold." Technology effectively serves clients with multiple locations and/or remote employees.

2 REDUCES TRAVEL COSTS

Virtually performed procedures minimize travel costs.

3 ENHANCES SPECIALIST INTERACTION

Enjoy access to industry and service specialists, regardless of location, with minimal scheduling and no travel.

4 MINIMIZES CLIENT TRAINING CRI STAFF

CRI staff members can access prior years' virtual audit recordings for training.

5 EASES EVIDENCE GATHERING BURDEN

Evidence (e.g. screen shots) from walk-throughs and other procedures are captured, mitigating your "homework."

SHARING CRI'S VALUES WITH YOU

We are proud of our hands-on, service-centric, and results-oriented approach. Combining that approach with quality controls and superior talent allows us to help you achieve your goals and strengthen your management systems and processes. This approach is further emphasized through our three core values which guide our team's behavior and function as the foundation for interactions with our clients and each other.

TRANSITIONING YOU

The transition plan is comprised of the following key activities and can occur within approximately two weeks, depending on the availability of the parties involved:

"As a CPA and former auditor myself, I know that changing auditors can often be difficult and time consuming due to learning curves and new processes. Fortunately, I quickly found that CRI's partners and staff make the transition simple and relatively painless. The significant involvement of the firm's partners is one of the main reasons for this result. CRI's partners are responsive to our needs and professionally handle the entire engagement from beginning to end."

CRI AUDIT FRAMEWORK

Our proposed services require a coordinated effort between us and CFM Community Development District's team. Planning and continual communication are essential to developing the appropriate procedures, working collaboratively to resolve any identified issues, and meeting your timelines.

CRI's audit approach occurs within a framework of our client's business and industry; therefore, we assess risk by:

- Understanding management's perspectives and goals, and
- Considering business conditions and threats that could prevent management from achieving its business objectives.

We assess risks in the following areas:

Our ultimate intent is to drill down from these broad risks to specific financial reporting risks. We understand both these risks and management's processes and procedures for mitigating them (i.e. internal controls) in order to develop our procedures to carry out our audit responsibilities.

Although our audits are conducted through a structured, risk-based model, we focus on understanding the client's needs, requirements, and expectations. We work collaboratively with management and the Audit Committee (or similar function) to develop a communication and work plan to continuously improve client service, by doing so we help in moving your team from simple **compliance** to providing you with a **competitive advantage**.

In planning, we concentrate on "key risks," (items with a greater risk of a material misstatement, a material weakness in internal controls, or other matters resulting in the issuance of an inappropriate audit report). We focus on "material" items (i.e. those items that would be important to the user of your financial statements). When evaluating materiality of identified misstatements, certain quantitative and qualitative factors must be considered—which may include:

- Impact on operating trends (revenue/income, expenses, net income, etc).
- Nature of the misstatement (i.e., did the misstatement result from an unlawful transaction?).
- Impact on liquidity, capital/surplus, earnings capacity, etc.
- Impact to loan covenants and contractual and regulatory requirements.

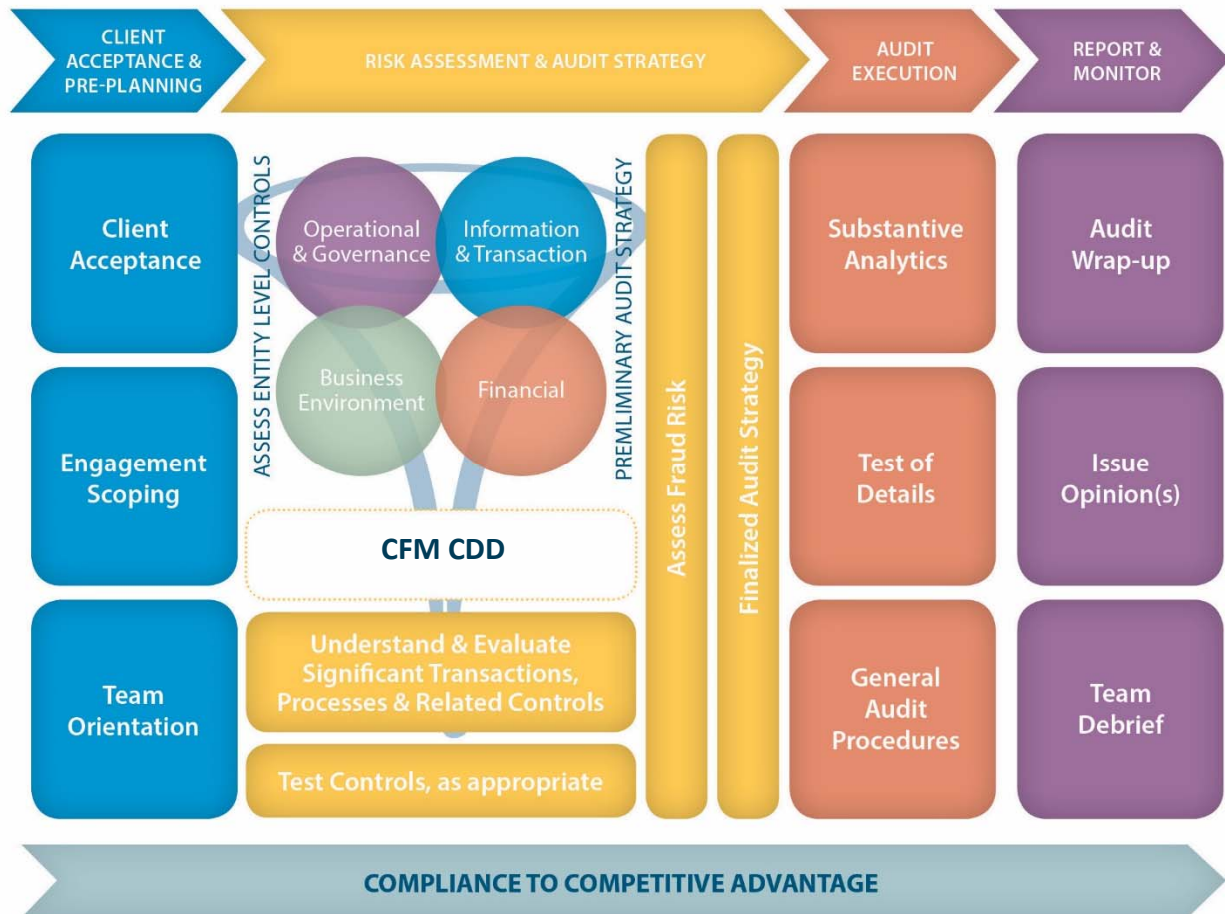

Consistent communication is a key to completion of the audit. By ensuring constant involvement, we are in a better position to respond to your issues timely and efficiently. Therefore, we plan to meet with your management to:

- Set-up the audit by reviewing the mapping of CFM Community Development District's financial information (financial statements and notes) to significant processes and IT systems to ensure that all significant account balances, transactions, procedures, and systems are tested as deemed necessary.
- Discuss ongoing changes—specifically new accounting pronouncements and key business transactions in their early stages, enabling us to agree on the resolution of various complex business issues on a timely basis.

CRI AUDIT APPROACH

Our audit approach is a four stage approach, as depicted in the summary below. Our client acceptance and risk assessment procedures (as noted on the previous page) occur during detailed conversations and observations with your team. The results of those procedures allow us to tailor an audit program to your specific risks and needs. We then execute the audit, report the results, and evaluate continuous improvement opportunities for ongoing service and benefit to you.

Stage 1: Client Acceptance & Pre-planning

- Perform client acceptance procedures where necessary.
- Collaborate with management to agree to expectations and scope.
- Assign appropriate staff to engagement based on client needs and assessed risk.

Stage 2: Risk Assessment & Audit Strategy

- Interview client personnel and others, as necessary to understand client-specific objectives and risks.
- Assess environmental and other external risks and potential impact on the audit planning.
- Assess entity level controls including: control environment, risk assessment, information & communication, and monitoring controls.
- Assess management's fraud and IT risk assessment models. Develop independent fraud and IT risk assessment.
- Assess IT General Computer (ITGC) controls, such as IT Environment, Developing & Delivering IT, and Operating IT & Monitoring IT.
- Assess materiality.
- Perform preliminary analytical procedures.
- Map financial statements to significant transactions, processes, IT systems and related controls.
- Develop understanding of significant processes and related controls.
- Determine existence of/reliance on SSAE 16 (formerly SAS 70(s)).
- Test controls including ITGC, as and if deemed appropriate. Tests will include a mix of:
 - inquiry,
 - observation,
 - examination and
 - re-performance.
- Determine reliance on Internal Audit, if applicable (e.g. controls or detailed tests).
- Determine reliance on specialist(s), if applicable (e.g. valuations, pension costs, etc.).
- Finalize risk assessments and develop final audit strategy.

Stage 3: Audit Execution

- Where possible, develop detailed analytical procedures to use as substantive tests to reduce tests of details. Examples include:
 - ratio analysis,
 - regression analysis,
 - trend analysis,
 - predictive tests or
 - reasonableness tests.
- Where possible utilize Computer-Assisted Audit Techniques (CAATs), such as IDEA or ACL to automate testing for more coverage and less disruption to the client.
- Where possible, perform targeted testing (also known as “coverage” testing) of account balances to tests large portions of account balances.
- Perform tests of details, including sampling, if applicable or necessary.
- Perform general audit procedures, as and if applicable, such as tests related to:
 - commitments and contingencies,
 - legal letters,
 - management representations,
 - reviews of Board minutes,
 - related party transactions,
 - debt covenants and
 - going concern.
- Perform other tests for compliance such as Yellow Book or Single Audit Tests.

Stage 4: Report & Monitor

- Continually monitor the audit and provide feedback as agreed during scoping or more frequently, as deemed appropriate.
- Conclude the audit (i.e. issue opinions and/or reports).
- Develop and present required communications, including management letter comments.
- Perform an internal team de-briefing to identify areas for improvement.
- Welcome the opportunity for an external de-briefing with our clients to improve.

APPENDIX A – PEER REVIEW

System Review Report

To the Partners of Carr, Riggs & Ingram, LLC
and the National Peer Review Committee

We have reviewed the system of quality control for the accounting and auditing practice of Carr, Riggs, & Ingram, LLC (the “firm”) applicable to engagements not subject to PCAOB permanent inspection in effect for the year ended June 30, 2016. Our peer review was conducted in accordance with the Standards for Performing and Reporting on Peer Reviews established by the Peer Review Board of the American Institute of Certified Public Accountants. As a part of our peer review, we considered reviews by regulatory entities, if applicable, in determining the nature and extent of our procedures. The firm is responsible for designing a system of quality control and complying with it to provide the firm with reasonable assurance of performing and reporting in conformity with applicable professional standards in all material respects. Our responsibility is to express an opinion on the design of the system of quality control and the firm’s compliance therewith based on our review. The nature, objectives, scope, limitations of, and the procedures performed in a System Review are described in the standards at www.aicpa.org/prsummary.

As required by the standards, engagements selected for review included engagements performed under *Government Auditing Standards*, audits of employee benefit plans, audits performed under FDICIA, and examinations of service organizations [Service Organizations Control (SOC) 1 and 2 engagements].

We noted the following deficiency during our review:

1. Deficiency – The firm’s quality control policies and procedures with respect to engagement performance, including engagement partner review, as well as firm training for partners and staff, do not provide partners and staff with a means of ensuring that all necessary procedures are performed and/or procedures performed are appropriately documented, in the performance of Single Audit engagements. As a result, we identified performance and documentation deficiencies in each of the Single Audit engagements reviewed, and in the case of several engagements, deficiencies such that the engagements were considered to not have been performed in accordance with professional standards in all material respects.

Recommendation – The firm should provide appropriate training to all firm personnel assigned to Single Audit engagements to ensure an understanding of the procedures required to be performed, as well as related documentation requirements. We also recommend that the firm consider whether additional quality control policies should be implemented with respect to these engagements, including a requirement for EQCR to be performed on all Single Audit engagements and the establishment of defined qualification requirements to serve as an engagement partner on Single Audit engagements.

We work with you to resolve any issues and keep in regular contact so there are no surprises when the final report delivers. In fact, your engagement team will report any potential audit adjustments to you on a regular basis so you will have adequate time to research and respond. Additionally, we have a disaster recovery plan that includes daily data back-ups and offsite file storage, so in the case of an emergency, your records would be safe.

- **Responsiveness**

We pride ourselves on our high level of responsiveness. We answer emails and telephone calls within 24 hours, and usually right away. We are always accessible to clients during business hours, and make every effort to answer any questions as they arise. Additionally, we don't just complete your audit and disappear. We understand the "big picture" and think beyond the traditional auditor's perspective. We remain in touch for the entire year, suggesting ways you can improve your District's performance, procedures and controls. We will update, advise and educate you on new or revised reporting requirements so you are sure to always remain compliant.

- **Reputation**

Our reputation in our field is impeccable. **We have never been involved in any litigation, proceeding or received any disciplinary action. Additionally, we have never been charged with, or convicted of, a public entity crime of any sort.** We have the professional staff available to perform the engagement and resources required to complete the work. Specific Audit Approach

SCOPE / WORK PRODUCTS / RESULTS

Grau's Understanding of Work Product / Scope of Services:

We recognize the District is an important entity and we are confident our firm is eminently qualified to meet the challenges of this engagement and deliver quality audit services. ***You would be a valued client of our firm and we pledge to commit all firm resources to provide the level and quality of services (as described below) which not only meet the requirements set forth in the RFP but will exceed those expectations.*** Grau & Associates fully understands the scope of professional services and work products requested. Our audit will follow the Auditing Standards of the AICPA, *Generally Accepted Government Auditing Standards*, issued by the Comptroller General of the United States, and the Rules of the Auditor General of the State of Florida and any other applicable Federal, State or Local regulations. **We will deliver our reports in accordance with your requirements.**

Proposed segmentation of the engagement

Our approach to the audit engagement is a risk-based approach which integrates the best of traditional auditing techniques and a total systems concept to enable the team to conduct a more efficient and effective audit. The audit will be conducted in three phases, which are as follows:

Phase I - Preliminary Planning

A thorough understanding of your organization, service objectives and operating environment is essential for the development of an audit plan and for an efficient, cost-effective audit. During this phase, we will meet with appropriate personnel to obtain and document our understanding of your operations and service objectives and, at the same time, give you the opportunity to express your expectations with respect to the services that we will provide. Our work effort will be coordinated so that there will be minimal disruption to your staff.

During this phase we will perform the following activities:

- Review the regulatory, statutory and compliance requirements. This will include a review of applicable federal and state statutes, resolutions, bond documents, contracts, and other agreements.
- Read minutes of meetings.
- Review major sources of information such as budgets, organization charts, procedures, manuals, financial systems, and management information systems.
- Obtain an understanding of fraud detection and prevention systems.
- Obtain and document an understanding of internal control. Consider the methods that are used to process accounting information which influence the design of the internal control. This understanding includes knowledge about the design of relevant policies, procedures, and records, and whether they have been placed in operation.
- Assess risk and determine what controls we are to rely upon and what tests we are going to perform. Perform test of controls.
- Develop audit programs to incorporate the consideration of financial statement assertions, specific audit objectives, and appropriate audit procedures to achieve the specified objectives.
- Discuss and resolve any accounting, auditing and reporting matters which have been identified.

Phase II – Execution of Audit Plan

The audit team will complete a major portion of transaction testing and audit requirements during this phase. The procedures performed during this period will enable us to identify any matter that may impact the completion of our work or require the attention of management. Tasks to be performed in Phase II include, but are not limited to the following:

- Apply analytical procedures to further assist in the determination of the nature, timing, and extent of auditing procedures used to obtain evidential matter for specific account balances or classes of transactions.
- Perform tests of account balances and transactions through sampling, vouching, confirmation and other analytical procedures.
- Perform tests of compliance.

Phase III - Completion and Delivery

In this phase of the audit, we will complete the tasks related to year-end balances and financial reporting. All reports will be reviewed with management before issuance, and the partners will be available to meet and discuss our report and address any questions. Tasks to be performed in Phase III include, but are not limited to the following:

- Perform final analytical procedures.
- Review information and make inquiries for subsequent events.
- Meeting with Management to discuss preparation of draft financial statements and any potential findings or recommendations.

You should expect more from your accounting firm than a signature in your annual financial report. Our concept of truly responsive professional service emphasizes taking an active interest in the issues of concern to our clients and serving as an effective resource in dealing with those issues. In following this approach, we not only audit financial information with hindsight but also consider the foresight you apply in managing operations.

Application of this approach in developing our management letter is particularly important given the increasing financial pressures and public scrutiny facing today's public officials. We will prepare the management letter at the completion of our final procedures.

In preparing this management letter, we will initially review any draft comments or recommendations with management. In addition, we will take necessary steps to ensure that matters are communicated to those charged with governance.

In addition to communicating any recommendations, we will also communicate the following, if any:

- Significant audit adjustments;
- Significant deficiencies or material weaknesses;
- Disagreements with management; and,
- Difficulties encountered in performing the audit.

Our findings will contain a statement of condition describing the situation and the area that needs strengthening, what should be corrected and why. Our suggestions will withstand the basic tests of corrective action:

- The recommendation must be cost effective;
- The recommendations are to be the simplest to effectuate in order to correct a problem;
- The recommendation must go to the heart of the problem and not just correct symptomatic matter; and
- The corrective action must take into account why the deficiency occurred.

To assure full agreement with facts and circumstances, we will fully discuss each item with Management prior to the final exit conference. This policy means there will be no “surprises” in the management letter and fosters a professional, cooperative atmosphere.

Communications

We emphasize a continuous, year-round dialogue between the District and our management team. We typically begin our audit process with an entrance conference before the onsite fieldwork begins. We regularly communicate through personal telephone calls and electronic mail throughout the audit and on a regular basis. Our clients have the ability to transmit information to us on our secure client portal with the ability to assign different staff with separate log on and viewing capability. This further facilitates efficiency as all assigned users receive electronic mail notification as soon as new information has been posted into the portal. We strive to continue to keep an open line of communication through the fieldwork and ending with an exit conference.

Additional Services

CONSULTING / MANAGEMENT ADVISORY SERVICES

ARBITRAGE

The federal government has imposed complex rules to restrict the use of tax-exempt financing. Their principal purpose is to eliminate any significant arbitrage incentives in a tax-exempt issue. LETTER OF INTEREST

April 2, 2018

Belinda Blandon, District Manager
CFM Community Development District
9530 Marketplace Road, Suite 206
Ft. Myers, FL 33912

Thank you for the opportunity to submit our qualifications and experience to serve as independent auditors of *CFM Community Development District*. The accompanying proposal will provide you detailed information regarding the scope of services to be provided, as well as a profile of the firm, the individuals who will serve you, our qualifications and experience, and representative clients, including specific references.

It is our understanding that we will provide the following services:

1. Financial audit as defined in Sec. 11.45(l)(b), Florida Statutes, of the basic financial statements of *CFM Community Development District* for the fiscal year ending September 30, 2018, with the option for two additional annual renewals. We will commit to maintain staff required to conclude the audits within the time constraints indicated in the RFP.
2. The audit will be performed in accordance with generally accepted auditing standards, *Governmental Auditing Standards* and the Rules of the Auditor General of the State of Florida.

We believe we are the best-qualified firm to perform the engagement for the following reasons:

- We presently audit **sixty-seven Community Development Districts**, fourteen municipalities and one water authority and have an excellent working knowledge of generally accepted accounting principles related to governmental entities. We assist in the preparation of the CAFR for most of these governmental entities.
- We have assisted nine municipalities in receiving the GFOA "Certificate of Achievement for Excellence in Financial Reporting". Most of these municipalities have been receiving the "Certificate of Achievement" for between ten and twenty years. Tamara Campbell is active as a national review team member of the GFOA's "Certificate of Achievement for Excellence in Financial Reporting" program. As a review team member, Ms. Campbell reviews and evaluates financial reports submitted by cities and counties to determine whether the financial reports meet the stringent requirements to receive the GFOA'S prestigious award. Participating as a review team member, Ms. Campbell has demonstrated her expertise in governmental accounting and auditing.
- We have strong information technology ability and will input the District's general ledger balances into our ProSystem fx Engagement software and perform a virtually "paperless" audit. The District's CAFR is linked to the general ledger; therefore, the likelihood of errors on the financial statements is reduced.

SERVICE APPROACH

Service Approach

Our audit will be segmented as follows:

- Phase 1: Audit Planning
- Phase 2: Evaluation and Testing of Internal Controls
- Phase 3: Substantive Testing
- Phase 4: Reporting

Phase 1: Audit Planning

Preliminary planning includes deciding on an overall strategy for the audit, obtaining an understanding of the entity and its environment, including its internal control, making an initial assessment of audit risk and materiality, and deciding on the overall timing of the engagement. We will also begin to assemble our “permanent file,” which consists of copies of organizational charts, District manuals, documents, and financial and other management systems.

We will meet with staff of the District to obtain an understanding of the flow of transactions through your accounting system. This includes understanding your computer environment in order to comply with the requirements of SAS 94 *The Effect of Information Technology on the Auditor's Consideration of Internal Control in a Financial Statement Audit*. We will also gather information to identify fraud risks as required by SAS 99 *Consideration of Fraud in a Financial Statement Audit*.

We will also perform preliminary analytical procedures and compare trends for the current and at least the two previous years for unusual fluctuations. This will include review of both budget and actual amounts.

During this planning phase, we will ask management and staff at the District to identify areas of higher risk as well as other areas that they want us to focus on during our audit. We will also provide the District with a list of all schedules to be prepared by the District.

Phase 2: Evaluation and Testing of Internal Controls and Compliance

During Phase 2, we will evaluate your control policies and procedures to determine if they are functioning properly in significant transaction classes. To gain an understanding of the procedures in place, and current internal control structure, we typically conduct interviews with staff and management involved in the specific transaction class to be tested. We then perform tests of these controls to determine with reasonable assurance that control procedures are functioning as planned and whether further testing will be needed. As part of our tests of controls, we will include tests of compliance with applicable ordinances, and state and federal laws and regulations. In order to determine which ordinances, laws and regulations to test for compliance, we start by reviewing the FICPA Practice Aid *Compliance Auditing in Florida*. We then evaluate which ordinances, laws and regulations have a direct and material effect on the determination of financial statement amounts. Sample sizes are determined based upon our assessment of control risk and may be judgmental, random, or stratified, depending on the attributes of the population being tested. We will select samples from the significant transaction classes and trace from original documents through the computer system to the general ledger through the use of IDEA Data Analysis Software.

Phase 2: Evaluation and Testing of Internal Controls and Compliance - Continued

Our control testing includes obtaining an understanding of the computer software used by the District, and tracing sample selections through the system to determine the desired outcomes are being achieved. Our testing of Information Technology includes inquiries of appropriate personnel regarding data backups and access to District files.

After controls have been documented, evaluated and tested, we will finalize the District's audit plan. Audit programs will be tailored to fit the specifics of the District's accounting systems.

Phase 3: Substantive Testing

Prior to starting year-end substantive testing, we will have a pre-audit meeting with the District Manager. We plan to use an audit senior for the audit. The partner or senior will always be in the field to supervise the work.

Our year-end fieldwork will focus on verifying balances in accounts. For example, we will confirm cash balances, as well as debt balances with financial institutions. In addition to obtaining audit confirmations, representation letters and attorney letters, we will perform tests on account balances using analytical procedures, recalculation and verification. Our firm uses ProSystem fx Engagement electronic audit software which may allow us to interface with your accounting system and reduce the time required to transfer your accounting data to a separate software package. We believe it is important to use analytical review procedures in this substantive phase of the audit. We compare analytical results to our expectation of what the results should be in order to determine if additional audit procedures are required. Typical analytical procedures include expense variances with previous years and budget amounts, revenue variances with previous years and budgeted amounts.

We will keep the District's management up to date on the progress of the audit and will discuss preliminary findings and potential problems or opportunities as we encounter them. Our approach to resolving problems encountered is to discuss with the District Manager to make sure our understanding is correct. Our process to produce a meaningful "management letter" is to review results of testing of internal controls, as well as year-end field work and draft recommendations for improvements to be discussed with management.

Service Approach - Continued

Phase 4: Reporting

The audit work is reviewed by the engagement partner throughout the engagement. Once the engagement partner review is complete, a second review of the financial statements is performed by the review partner. This second review is required as part of McDermitt Davis and Company's internal system of quality control and ensures the District receives the best service possible.

We will prepare a draft of the financial statements and then issue the following:

- Auditor's report on financial statements
- Report on internal control over financial reporting and on compliance and other matters based on an audit of financial statements performed in accordance with "Government Auditing Standards"
- Management Letter

We will provide technical assistance to the District to meet changes in required disclosures. Once reports have been reviewed by management and approved in final form, we will issue final reports and supply in electronic format.
